Sree Dattha Group of Institutions

Aug 2024 – Jul 2028

B.Tech in Computer Science and Engineering, Hyderabad, Telangana

SR Educenter Junior College

Jul 2022 – May 2024

Intermediate (MPC), Telangana

Vishwashanthi High School

Jun 2021 – May 2022

Secondary School Certificate (SSC), Telangana

Skills

- **Programming Languages:** Python, JavaScript
- **Frontend Technologies:** HTML5, CSS3, Responsive Web Design
- **Developer Tools:** Visual Studio Code, Git, GitHub, Microsoft Office
- **Core Concepts:** UI/UX Design, API Integration, Data Structures (Basics), Problem Solving
- **Soft Skills:** Communication, Teamwork, Time Management, Continuous Learning

Projects

AI Movie Recommender

HTML, CSS, JavaScript, Groq API

- AI-powered movie recommendation app suggesting titles based on genre, mood, actors, and language.
- Integrated the Groq API to generate personalized recommendations via an interactive UI.
- Designed a clean, responsive interface to make browsing and selecting recommendations intuitive.

Amazon Clone

HTML, CSS

- Built a responsive clone of the Amazon homepage with navigation bar, product sections, banners, and footer.
- Focused on pixel-perfect UI implementation to strengthen frontend development skills.
- Structured layout using semantic HTML and modular CSS for easy maintenance and scalability.

Study Buddy

HTML, CSS, JavaScript

- Study assistant app that converts notes into summaries, flashcards, and quizzes.
- Supports note organization and interactive self-assessment for students.
- Implemented dynamic JavaScript logic to generate flashcards and quizzes from user input on the fly.
